RECOGNITION**

Come Together, and Bridge the Gap for Recognition in ECE!

The 2022 Early Educators Leadership Conference (EELC), *Leading Career Pathways to Equity*, will bring together a concentrated network of 200+ national and international early childhood professionals, policymakers and program leaders dedicated to advancing the field of early childhood education and improving the lives of young children and families.

Our attendees come seeking professional development, as well as new opportunities to extend and strengthen the reach of local and federal early care networks. With three days of general sessions, panels and workshops, attendees are constantly gaining knowledge and skills, sharing best practices and networking with early childhood professionals from around the world.

EELC provides a unique opportunity for conference sponsors to enhance their brand recognition, engage with attendees about their services and provide collateral for continued post-conference engagement and learning. This year's conference will focus on advancing equity in early learning, through advocacy for young children, families, and the educators who serve them. Your sponsorship will demonstrate your support for these important causes aimed at improving our society and advancing the early education of young children.

EELC is an ecosystem built for attendees, speakers and sponsors alike to impact change, grow professionally and evolve into new areas, networks and systems.

Why Sponsor?

BUILD BRAND AWARENESS

Our innovative sponsorships help you target audiences while on-site, as well beyond the conference with opportunities that will produce additional value and increased views.

The conference provides more than a dozen sponsorship opportunities that will meet your company's marketing needs.

Now is the time to select a sponsorship with major benefits that will energize your company.

THOUGHT LEADERSHIP AND DECISION MAKERS

EELC brings together national and international leaders, policymakers, early childhood professionals, higher education institutions and early childhood training organizations all under one roof to discuss vital issues facing the field.

MAJOR INFLUENCERS ATTEND

Our conference is custom-designed for early childhood professionals, influencers, policymakers and practitioners who are involved in delivering quality early childhood education services. The EELC attracts local, state and federal policymakers, national and international program leaders, top training organizations and education providers. The boutique structure of the EELC interactive sessions, networking and leadership skill development draws early education and higher education administrators, teachers, legislators and business leaders – who understand the importance of the public and private impact quality early education has in communities throughout the U.S. and the world.
